DETAILED ACTION

Allowable Subject Matter

1. Applicant's amendments filed on 9/7/04 have been fully considered and are persuasive.

2. The following is an examiner's statement of reasons for allowance:

Applicant's claimed invention is deemed allowable over the prior art of record as the prior art fails to teach or suggest a second device which requests the first interrupt and which is instead assigned a second interrupt by the dynamic router such that interrupt requests are dynamically allocated to provide a more balanced interrupt distribution whereby interrupt sharing and corresponding delays are reduced in combination with other limitations as recited in independent claims and further in view of the specification.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
